

# Deep Linking

## How to create links to the Sportradar Statistics Centre

**Setup:** Contact the client setup team to initiate a setup for deep linking of your company match id.

**Matchid:** The syntax for linking directly to matches in statistics is:

→ Sportradar match

<https://s5.sir.sportradar.com/betradar/en/match/14482228>

→ Your company match id

<https://s5.sir.sportradar.com/betradar/en/match/m4661731>

(non-working link used for demonstration purposes only)

Here the matchid is prefixed by 'm'

### COMMON FOR THESE LINKS:

→ **betradar** is replaced with your solution name. Usually the company name.

→ 'en' is the language code and can be replaced with other supported languages. See language menu.

### FOR BOTH TYPES OF MATCH ID'S THE FOLLOWING APPLY:

→ Dynamic link

- Played matches will go to the [Match page](#).
- Unplayed matches will go to the [H2H page](#).
- Note that the links will only work from a white-listed domain or if entered directly into the browser. Contact client setup for help regarding this.

### Seasonid

→ Sportradar seasonid

<https://s5.sir.sportradar.com/betradar/en/season/41198>

### Teamid

→ Sportradar teamid

<https://s5.sir.sportradar.com/betradar/en/team/4854>

→ With season seeding

<https://s5.sir.sportradar.com/betradar/en/team/4854/season/35800>

### **Uniqueteamid**

- Sportradar uniqueteamid  
<https://s5.sir.sportradar.com/betradar/en/uniqueteam/31>
- With season seeding  
<https://s5.sir.sportradar.com/betradar/en/uniqueteam/31/season/46748>

### **Tournamentid**

- Sportradar tournamentid  
<https://s5.sir.sportradar.com/betradar/en/tournament/1>

### **Uniquetournamentid**

- Sportradar uniquetournamentid  
<https://s5.sir.sportradar.com/betradar/en/uniquetournament/17>

### **Tableid**

- Sportradar tableid  
<https://s5.sir.sportradar.com/betradar/en/table/14112>
