

Managed Trading Services (MTS*)

Welcome to Betradar's MTS documentation page. Here you will find the latest information about our service, including development updates and integration manuals.

MTS enables you to improve your operational performances, reduce sportsbook business risks and transform fixed costs into variables – applicable for all types of operators and customised to your needs. Since its launch, MTS has developed to become the most flexible and sophisticated sportsbook management service, resulting in over 150 bookmakers relying on our service.
