22
Mar
2018

- Added a link to the replay test matches section from the information per sport sections (at the top)
- Added a new border style to all XML snippets to distinguish them from tables
- Added a section to inform the client about delta feed messages under system communication
- Added bold text to subsections in the table of content
- Added multiple missing values to XML attribute definition tables
- Added the allowed type for the setscore attribute (type="xsd:string")
- Added the sport specific XML config 133: Remaining time in Aussie rules
- Added the sport specific XML config 134: Remaining time for period in Aussie rules
- Added the sport specific XML config 135: Add new attribute with extended matchtime info for Rugby
- Added the sport specific XML config 136: Add new attribute with extended matchtime info for Futsal
- Added XML examples to the sport specific features of Aussie rules and Rugby (setscores attribute)
- Additional lists sorted alphabetically
- Adjusted all page margins to fit the new layout
- Adjusted the font size of all XML snippets
- Changed the layout of the "Betstop Reason" table (changed into a 4 column table from 2) to make it more compact
- Changed the table of content to no longer be included as pages
- Changed the table of content to no longer include the header or footer
- Created a document structure section under "introduction" chapter
- Fixed a bug causing the table of content and page numbering to display incorrectly
- Improved the look of the match_status tables (had some missing lines, lines with odd color, etc.)
- Increased the size of the header image (betradar logo), and removed the thin black line under it
- Made additional format changes (unusual use of \newpage and line spacing)
- Made section text larger in the table of content
- Minor update to figure.2 in the Betpal section
- Moved "Unified feed" and "Betpal" under the new section "Additional Products"
- Moved the section "scout matches" from "Additional products" to "System Communication". This is no longer a separate product as of Q3 2017
- New layout has cleared up multiple bad box errors. PDF files build much faster
- Removed some overuse of spacing in some XML examples in the last chapter
- Removed the "Match Status" chapter because it is already included in the "information per sport" chapter
- Removed the "replay test matches" field from the information per sport chapter
- Removed the "Sport Specific XML features" chapter because it is already included in the "information per sport" chapter
- Removed the config "Reply number specified by client". It no longer exists in any database
- Removed the old footer and replaced it with the new betradar template one
- Renamed the section "XML messages" to System Communication. No changes to the subsections
- Renamed the subsection "XML features" to "sport specific XML elements and attributes" (to match LO/LD documentation).
- Test matches chapter redesigned with a table instead of listings for test matches
- Updated setscore description for Baseball, Basketball, Handball, Soccer, Rugby, Aussie rules and Futsal
- Version number changed to v2018.2.1

<p>31 Jan 2018</p>	<p>General changes</p> <ul style="list-style-type: none"> • Added an introduction area for the "Information Per Sport chapter" • Added captions to all figures and images • Added small descriptions for several sections to avoid sections and subsections overlapping • Adjusted all XML example boxes to fit page margins • All Latex errors removed • All Latex warnings removed • Changed color and fontsize of the sections and subsections • Changed some text formatting to highlight important messages to client • Changed system for headings (Section, Subsection, SubSubsection, Paragraph (new)). • Changed the layout for "Information per sport" chapter • Clarified the word "action" as an XML message sendt from a client system • Corrected all missing in-document references between chapters • Improvements to the Table of Contents • Overhaul of the Betpal chapter tables, figures and captions • Removed XML configurations covered in multiple chapters to avoid redundancy • Renamed Config.123 to "Send clearbet message for any draw no bet, home no bet and away no bet market in case of a refund" • Setscore attribute description for Ice hockey improved • Several image wraps and alignments adjusted to no longer cover captions • Sorted several chapters, lists and tables alphabetically • Version of the documentation has been streamlined to fit current release (2018.1.x) <p>Chapter specific changes</p> <ul style="list-style-type: none"> • 10.6 Match statuses Added status Ids up to the 5th (And ids for pause 3 and 4) • 10.6 Match statuses Removed the status for GOLDEN_SET and DELAYED
<p>21 Nov 2017</p>	<ul style="list-style-type: none"> • Changed typo in LoL match statuses: pause1/pause2/pause3/pause4 has been replaced with a generic "paused"
<p>13 Nov 2017</p>	<ul style="list-style-type: none"> • Removed outdated XML Configuration ID 70, "Early betstart in soccer when there is a possible dangerous goal position"
<p>06 Nov 2017</p>	<ul style="list-style-type: none"> • Added new chapter "Unified Odds Feed" with a brief explanation about the feed, plus a reference to our technical documentation.

18 Feb 2016	Fixed bug which caused some of the XML examples to be formatted wrong.
05 Feb 2016	Updated connection URL in chapter 2.2.2
25 Jan 2016	Added new match to replay server: testnr 38 - basketball - NCAA with overtime. Added new sport: CS:GO (match statuses). Added missing description for XML configuration with id 20 to documentation.
2015- 10-14	Added additional description about when the probability attribute can be added to the OddsField element to chapter 6.1. Documentation ready for release on 2015-10-20
2015- 10-07	Added description about scientific notation in the probabilities attribute to chapter 6.1.
2015- 09-30	Added the following matches to the replay server: - American football: 33 (NFL preseason), 34 (NFL preseason), 35 (NFL preseason) - Soccer: 36 (extra time + penalty shootout), 37 (penalty shootout) New Info types added as extra info for Volleyball, Beach volleyball and Badminton, if the setting "Include extra sport info in meta messages" (see chapter 5.1.5) is enabled: NumberOfSets, SetLimit, Format. Added a new chapter for the Live Odds general configuration on betradar.com , describing usage of probabilities. (See chapter 6)
2015- 08-14	Added new betstop reason "Possible challenge".
2015- 08-13	Added missing betstop reasons to overview.
2015- 08-12	Added best practice to section 7.6.3 (Replay Server -> Actions -> Meta). Documentation up-to-date for the release on 18/08/2015
2015- 08-03	Updated wrong XML example in Replay Server section.
2015- 07-10	Added the following match statuses for badminton: pause3, pause4, 4set, 5set
2015- 07-07	Added guideline about XML configuration refresh rate to chapter 5. Updated XML configuration in chapter 5.2.2: Instead of active corner/booking markets, the mentioned attributes will be included in all Deeper Coverage matches. Added description about the timestamp attribute on the replay server to chapter 7.1
2015- 07-06	Added the following test matches to the replay server: 30 (Ice Hockey - USA NHL), 31 (American Football - USA NFL), 32 (Basketball - NBA)
2015- 06-10	Final version for the release on the 16th of June 2015.
2015- 06-01	Added best practice regarding meta requests to chapter 4.1.14 and chapter 4.2.4. Fixed typo in XML example in chapter 4.2.3 (error recovery): the second example now shows one "msgfrom" attribute and one "msgto" attribute (which is correct) instead of two "msgfrom" attributes. (not correct).
2015- 05-18	Added missing match status "awaiting_sd" to the rugby match status list. Rephrased some lines and fixed some typos in the BetPal chapter.
2015- 05-12	Added BetPal documentation as subchapter to Live Odds documentation. (Chapter 3)
2015- 04-09	Added new XML configuration: Send empty meta response (chapter 4.1.27)

2015-04-09	Final version for release on 2015/04/14
2015-04-09	Added new XML configuration for darts: early betstart. (chapter 4.15.2)
2015-04-08	Added new XML configuration for darts: early betstart. (chapter 4.15.2)
2015-03-18	Added best practice to chapter 3.2.3 (error request). It is recommended to use current requests instead of error requests. Removed chapter "state automation" as the information was outdated and irrelevant.
2015-03-13	Provided chapter 4.1.17 (Show current period score during period) with a complete list of sports which are affected by enabling the setting.
2015-03-12	Updated diagram in state automation. Information is still the same, but the diagram looks cleaner. Added new test match to replay server, number 29 (volleyball with rollback).
2015-03-11	Updated chapter 6 (replay server), added xml examples and xml attribute description.

Legacy Live Odds - Replay Server
