Gaming Solutions flow

Our regular Gaming Solutions use **pre-match** approach. Odds are normally provided for the upcoming matches, markets are suspended upon match start and settled after matches/stages.

Our In-play Gaming Solutions are designed to bring live (in-play) betting experience.

Each Gaming Solution has its own concept of a Season and belonging Stages, Matchdays and Matches. Feel free to check the specifics on our Gaming Solutions webpage <https://www.betradar.com/virtual-sports-betting/>, Live Demonstrator <https://www.betradar.com/virtualsports/>
