

LO - XML messages sent from the client system

The communication between the Betradar system and the client system is done by exchanging messages in the XML format. This chapter provides you with information about the different XML messages/requests that are possible to send from a client system.

XML requests

- [LO - Current request](#)
- [LO - Error recovery](#)
- [LO - Goal and card message status in the feed](#)
- [LO - Login](#)
- [LO - Match booking](#)
- [LO - Match registration](#)
- [LO - Meta information](#)
- [LO - Request score and card summary](#)
- [LO - Translations](#)
- [LO - Wrong XML from client system](#)
