Sport specific XML elements and attributes

This section explains what elements/attributes one can expect for counter-strike matches in addition to the standard elements and attributes.

XML example

```
<BetradarLiveOdds xmlns="http://www.betradar.com/BetradarLiveOdds"
status="alive" timestamp="1456304650377">
<Match active="1" betstatus="stopped" matchid="1003188216" msgnr="37"
score="1:0" setscores="19:15" status="ended" current_ct_team="1"/
>
</BetradarLiveOdds>
```

XML attributes definition

Element	Attributes		
	Attribute	Description	Possible values
Match	current_ct_team	Which team is currently playing on CT side.	1 = home team 2 = away team

XML configuration

Sport specific XML configurations for Counter-Strike.

(ID: 110) Multiple bets of same type active at once for Counter-Strike matches

The Live Odds system selects the most balanced bet (line, spread, etc) out of all available ones for each market, and only this one will be sent out to the client system. Enabling this setting will allow multiple bets of the same type to be sent out at once, not only the most balanced ones. E.g. for the total market in soccer the most balanced line would be 2.5. When enabling the setting total 1.5 and 3.5 would be sent as well.

Match statuses

ID	Status	Status description	Additional information
0	not_started	Not started yet	-
141	1map	1st map	-
301	pause1	1st pause	-
142	2map	2nd map	-
302	pause2	2nd pause	-
