LCR User Manual

Introduction

In the Live Channel Retail User Manual you will find all the essential information to make full use of the Live Channel Retail and its options. This manual includes a description of the system, functions and capabilities. Step by step it is explained how to set up all necessary functions and administrate them, handle accounts and how to amend content.

Furthermore, all information needed to get the Live Channel Retail up and running in your shop is explained in detail. Reading out today's schedule, launching the channel or visiting the news section, find everything needed for a successful and hassle-free implementation.
