XML attributes definition

Element	Attributes		
	Attribute	Description	Possible values
match	<i>matchtime</i>	The playing minute of the match	Number > 0

Several sports have additional matchtime related attributes. Those attributes have to be enabled in the XML configuration before they are included in the feed:

- American football: Remaining time and remaining time in period-
- Basketball: Remaining time and remaining time in period.
- Handball: Remaining time and remaining time in period.
- Ice hockey: Match time, remaining time and remaining time in period.
- Soccer: Extended matchtime.
- Clock stopped information for basketball, ice hockey, handball and futsal.
